Assignment 2

Question 1: Create an HTML page that uses the following tags and attributes:

<a> with href and target attributes.

<img> with src,alt, height,width attributes

Instructions:

Include at least two links (one that opens in the same tab, one in a new tab using

target="_blank").

Include at least one image with meaningful alt text.

You can use any image URL of your own or from internet like

https://i.postimg.cc/9FLzZYBS/logo.jpg

<!DOCTYPE html>

<html lang="en">

<head>

  <meta charset="UTF-8">

  <title>HTML Tags Example</title>

</head>

<body>

  <h1>Welcome to My Sample HTML Page</h1>

  <p>

    Visit the

    Rohit Sharma Information.

  </p>

```html
<p>
  Check out
  <a href="https://en.wikipedia.org/wiki/Virat_Kohli" target="_blank">Virat kohli Information</a> in a new tab.
</p>

<h2>The first Bit Solution</h2>
<img
  src="https://i.postimg.cc/9FLzZYBS/logo.jpg"
  alt="A scenic view of mountains, trees, and a lake"
  width="600"
  height="400"
>

</body>
</html>
```

Welcome to My Sample HTML Page

Visit the Rohit Sharma Information.

Check out Virat kohli Information in a new tab.
